

Our school should help Australia

Our school should help Australia because. The animals are dying, land is being destroyed, and We have resources to help.

One reason that we should help is the animals are dying for example some might go extinct, the food chain will get messed up, and over one million animals died.

Another reason we should help is land is being destroyed. For example animals have no where to live, the fire traveled 24,000 feet, and the smoke can pollute the air.

Although we should help because the animals are dying and the land is being destroyed I especially think we should help because we have the resources to help for example firemen don't have the rite gear so we can send them gear, local businesses need money, and people are sending food and blankets.

Australia fires

I never realized that Australia has been having wildfires until one day my friend came over to play with me when I was playing with Legos at recess and asked if I wanted to help him and other kids in my class do a fundraiser to raise money and donate it to Australia.

I think that our school should help Australia because people need our help because people need our help because lives are in danger, land is being destroyed and because and most of all because we have the resources to help Australia.

One reason why I think that our school should help Australia is because people need our help because lives are in danger. For example about half a million people have died, firefighters are getting sent out with the wrong gear and the fires are destroying all the food that people eat and need to survive.

Another reason that I think help Australia is because destroyed. For example 17.5 land has been destroyed by

our school should land is being million acres of fires affected 653

homes and destroyed 588 other ones and fires have spread over 24,000 square miles.

Although I think that our school should help Australia because people need our help because lives are in danger and land is being destroyed. I especially think that our school should help Australia because we have the resources to help Australia. For example, celebrities donated money to help Australia, people have donated food, water, animal poaches and clothes and people are knitting blankets.

I think we should help Australia

I think we should help Australia because we have the resources to help, land is being destroyed, and most of all because the fires are affecting people's lives and animals,

One reason that our school should help Australia is that we have the resources for example firefighters are getting sent out in the fires without the right gear. People are making blankets. And celebrities are posting on social media and telling people to help.

Another reason that we should help Australia is that land is being destroyed for example the fire is affecting the animals ecosystem 17.5 million acres have been destroyed of land has been destroyed. And 130 active fires and 50 uncontrolled.

Although our school should help Australia because we have the resources to help and land is being destroyed I especially think our school should help Australia because the fires are affecting peoples and animals live for example over half a million animals have died 1588 houses have been destroyed and 653 damaged and 27 people have died

We should help Australia

Are school should help Australia because lives are being destroyed and most of all the land is dying.

One reason that are school should help Australia is that lives are being killed for example 27 people have been killed by wildfires some animals are going extinct and don't have equipment to fight fires.

Another reason that are school should help Australia is that homes are being destroyed. For example 1558 homes have been destroyed 653 homes have been damaged by wildfires and animals homes have been destroyed because of wildfires.

Although are school should help Australia because lives are being killed and homes are being destroyed I explicitly think are school should help Australia because the land is dying. For example the wildfires are affecting the ecosystem the fires are causing pollution and 50 fires that are not controlled are destroying land.

Our school should help Australia because lives are being destroyed, land is being destroyed and most of all because lives are being destroyed land is being destroyed and most of all because people need our help

One reason is that are school should help Australia is that lives are being destroyed for example 27 people died about half a million animals have died such as koalas, kangaroos

Our School Should Help Australia

I think our school should help Australia because lives are being demolished, land is to, and mostly because lives are at risk.

One reason I think our school should help Australia is lives are being demolished. For example, half a million animals have died, 27 humans have died, and animals die because all the food is burning.

Another reason I think we should help is land is being demolished. For example, trees are falling, air is polluted, and wildfires traveled 24 thousand square miles.

Although I think we should help Australia because lives are being demolished and land is to. I mainly think we should help because lives are at risk. For example, people have lost 1588 homes, local businesses need money.

It sounds like Australia needs help and I think we should be the ones to help so please let us do pajama day

Our school should help Australia

Our school should help Australia because lives are being destroyed, people need our help and land is being destroyed.

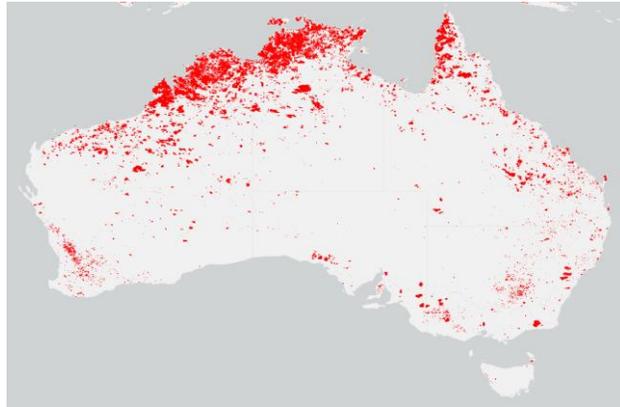

One reason our school should help Australia is that lives are being destroyed. For example 27 People have died, half a million animals have died and Animals don't have enough food.

Another reason our school should help Australia is that people need our help. For example People's houses are gone from the fires, People need money for food and People need water.

The last reason our school should help Australia is that land is being destroyed. For example People will have nowhere to go, Animals won't have a habitat and the fires could cause pollution to land.

AUSTRALIA

Our school should help Australia.

One reason that our school should help Australia is people need help. Another reason is the wildfires are affecting people's homes. Lastly, people's lives are at risk.

One reason that our school should help Australia is that people need help. First, land is being destroyed. Secondly 17.5 million acres have been destroyed. Lastly, fire fighters are being sent out with the wrong gear.

Another reason that our school should help Australia is that the fires are affecting people's lives. First, the fires have destroyed over 1,588 homes. Also the fires have damaged 653 homes. My final example is the fires could cause pollution.

Although our school should help Australia because people need help and the fires are affecting people's lives

I especially think our school should help Australia because lives are at risk. First 480 million animals have been affected. Secondly the fires have killed 27 people.

My final reason is there are 130 active 50 are not contained. Mrs. Kent please let our school help Australia.

KOALAS!!!!!!!!!!!!

Ms. Kent should let us help Australia

I think we should help Australia because Australia is having massive wildfires
Some reasons we should help is lives are being killed, lives at risk, and most of
all we have ways to help

ONE REASON WE SHOULD HELP IS LIVES ARE BEING KILLED
IS MILLIONS OF ANIMALS ARE BEING KILLED. ANOTHER REASON LIVES ARE
BEING KILLED IS 27 PEOPLE HAVE DIED.
ANOTHER REASON LIVES ARE BEING KILLED IS
KANGAROO ARE TRYING TO JUMP AWAY
ANOTHER REASON MS. KENT SHOULD LET US HELP AUSTRALIA IS PEOPLE
ARE AT RISK. ONE REASON PEOPLE
ARE AT RISK IS ANIMALS ARE HURT. ANOTHER REASON
PEOPLE ARE AT RISK IS PEOPLE ARE HURT. ANOTHER REASON PEOPLE ARE
AT RISK IS HOUSES ARE BURNING
DOWN. ANOTHER REASON MS. KENT SHOULD LET US HELP
AUSTRALIA IS WE HAVE WAYS TO HELP. ONE WAY WE COULD HELP IS YOU
COULD LET US DONATE MONEY TO

AUSTRALIA.

ANOTHER REASON WE CAN HELP IS DONATE FOOD. ANOTHER REASON

WE HAVE WAYS TO HELP FIREFIGHTERS

HAVE THE RIGHT GEAR SO WE COULD LET THEM BORROW SOME GEAR.

Our school should help Australia

Our school should help Australia “like who want people’s lives to be destroyed forever. I want to help because lives are at risk, land is being destroyed, and we have the resources/community to help.

One reason our school should help Australia is that lives are at risk, my first example, over 27 people have been killed by the fires, some animals are going extinct, and the fires have affected 1,588 homes and 50 homes have been damaged

Another reason our school should help Australia is that land is being destroyed. My next example, the fires are affecting the Ecosystem, 17.5 acres been destroyed, and the fires could cause pollution to land.

Although our school should help Australia because lives are at risk, and land is being destroyed, I especially think our school should help Australia because we have the community/resources to help them. My last example/ celebrities are donating money, family are making shelter to use, and people are donating food and water to animals and families.

I hope you enjoyed this essay Mrs. Kent. PLEASE LET OUR SCHOOL HELP AUSTRALIA!!!!

HELP AUSTRALIA

Hey! Miss Kent listen we need to help Australia because they need our help.

Our school should help Australia for many reasons like the fires are affecting people's lives, very dangerous, and because we have ways to help.

One reason I think we should help because it's affecting people's lives. Animals and plants they eat are dying, 1,588 homes have been destroyed, and it is polluting the air

Another reason is the fires are dangerous. It has killed 27 people already. 1,000,000 animals have died. Finally 17.5 acres have been destroyed.

Finally we have ways to help. Celebrity is donating money to them. People are knitting blankets for them. Lastly people are donating supplies.

I hope we can help Australia.

Berlin Elementary School

Should Help Australia

I used to think that Australia didn't need our help and they're fine but now I realize that this is not a joke. I thought that they can make it by themselves but they can't. They need our help. This is all my evidence that I will give to you. Enjoy!

One reason that Berlin Elementary school should help Australia is that lives are being destroyed. For example animals are going extinct, and there is nothing we can do to fix that unless somebody could stop the wildfires. Another example is about a half a million people died. Can you imagine your family getting killed by the wildfires? Also there will be a lot of ambulances zooming by to try to help other families survive. Also another important detail is animals don't have a lot of food to survive. Their food are getting dried up and they can't eat it anymore.

*Another reason that Berlin elementary school should help Australia is that many things are getting affected. One reason is animals lives are at risk. Animals are dying because they're food is burnt and there is flames all over it so they won't eat it because they'll get flames all over they're mouth. Secondly is the fires destroyed over 1,588 homes. Could you imagine your home getting destroyed and you have to live out in the streets with no water and food? **Also the fires or smoke could cause pollution.** Pollution is really bad for you, you do not want to breathe in bad air.*

Although Berlin Elementary school should help Australia because lives are being destroyed and many things are being infected I especially think Berlin Elementary

*School should help Australia because people need our help. A reason is local businesses need our help. Local businesses need our help because they need some money. **Firefighters are getting send out there and they don't have the right gear.** In Australia there are 130 active and 50 are controlled.*

Other people should care about this because firefighters, animals and especially Australia are suffering. So Mrs. Kent please let us help Australia.

Australia Wildfires

At first I thought the fires were not a big deal. Then I looked into it I said 'This is a pretty big life crisis. I need to do something.'

I think our school should help Australia because people need our help, many things have been affected, and animals are in danger.

One reason our school should help Australia is that people need our help. My evidence is, 1,588 houses have been destroyed, firefighters don't have the right gear, and people need resources, such as clothes, food and water.

Another reason our school should help Australia is that many things have been destroyed. First, animals are becoming extinct. Secondly, 17.5 million acres have been destroyed. Lastly, habitats, cities, and neighborhoods are entirely perishing.

My last reason our school should help Australia is that animals are in danger. My evidence is, there food is burning, 480 million animals have been affected, and last, the fires are wreaking eco systems.

**I hope you agree with me that we should help
Australia. I hope we will do a fundraiser. Please say
yes.**

Hi, If you're reading this it's an *essay* about the *Australia* wildfires happening right this second.

One reason why I think Berlin Elementary School should help Australia is lives are at risk some of these lives are children, adults.

Hey here is the exact kill counter the count is 27 you want that to be 28

HUH!?HUH!?HUH!?HUH!?... Um sorry got a little angry there let's move on to the next example.

Another example of this is over a million animals died.

And for my final example 480,000,000 animals were affected.

For my second reason many things are being affected. One example is. Animals are going extinct.

Next now for my second example the Air is being polluted because of these fires.

And finally for my third example families are lost.

I think this reason is the most important reason of all we have what Australia needs.

An example of this is fire fighters need better gear let's say someone is trapped in a car how're they going to get them out of the car?

Secondly we have money to be given and lots of it too and local businesses need money.

And finally we have clothing to be given for example pants, coats, shirts, blankets.

And to bring this essay to a conclusion
These three reasons are why I think BES
Should help Australia.

Australia Wildfires

Hey! Hey! Mrs. Kent! You should let us help Australia and their wildfires. Can you please let us do a pajama day to raise money?!

One reason that you should let us do a pajama day is lives are at serious risk. My first reason is that more than one half million animals have been killed or and injured. Just think about it. One half million! My second example is more than 27 people have died from the wildfires. That's a lot! My last example is that animals will not have any food because it will be burnt from the fire.

My second reason is that we have ways to help. My next example is that celebrities are already donating money! Exciting! My second example is that people are donating food, water, and animal shelter! Yay! My last example is people are knitting blankets for people to sleep!

My last reason for us to do pajama day is that the fire is dangerous and getting more dangerous every day. Also, 17.5 million acres of land have been destroyed. My second reason

is that the fire destroyed more than 1588 homes! My last reason is the smoke can cause pollution. PLEASE MRS.KENT!!!

Mrs. Kent we should help Australia because lives are being destroyed, many things are being affected and most of all we have the resources to help.

One reason our school should help Australia is that lives are being in danger for example about half a million animals died, 27 people died and plants are dying too.

Another reason that our school should help Australia is that many things are being affected for example wildfires are affecting the ecosystem, wildfires are affecting people by bushfires, and wildfires are affecting animal

Although our school should help Australia because lives are being destroyed and many things are being affected I especially think our school should help Australia because we have the resources to help for example celebrities have donated money and food .I feel sad, I want people to live.
