

June 2022

Dear Parents,

We would like to welcome you and your child to the third grade! There are a few things that you can do over the summer to help your child prepare for the school year in September. Please encourage your child to read and write as much as possible this summer. A great way to encourage writing over the summer is by having your child write letters to family and friends, make lists, or write in a summer journal each night. It is of the utmost importance that students know their addition and subtraction facts. Please practice on a daily basis using flashcards, computer games, and any other way possible. The website IXL will be accessible all summer. Please log on each week to practice if possible!

There are some materials that will be needed for the third grade. Please purchase them over the summer so that your child is ready for activities on the first day of school. **Make sure you are purchasing items from the column of the teacher your child has been assigned to.** Thank you so much!
