Berlin, New York

BERLIN MIDDLE HIGH SCHOOL

Berlin Central School District Grading Policy

The Berlin Central School District believes in a rich educational environment where students can attain deep learning; express their learning in a variety of ways; differentiated to meet their needs to exhibit various skills found within each of the district-approved curricula; and cultivate relationships that encourage collaboration, respect, and individual student agency, thereby creating responsible, resilient graduates with potential and promise to achieve in their subsequent endeavors.

Academic Grading

Grading is considered a positive tool to indicate achievement and development in each class or subject in which a student is enrolled. The Board of Education recognizes that the classroom teacher has the primary responsibility to evaluate students and determine student grades.

The District shall use a uniform grading system. Classroom teachers shall evaluate students and assign grades according to the established system.

Grading shall be based upon student improvement, achievement on assessments, and participation in classroom discussions and activities. Parents/caregivers shall be provided a written report card regarding their child's progress. The use of marks and symbols will be appropriately explained in course outlines.

All grading and reporting practices at Berlin Middle High School will reflect the following design characteristics:

- The primary purpose of the grading system shall be to fairly, clearly, accurately, and consistently communicate learning progress and achievement to students, families, postsecondary institutions, potential employers, and other relevant stakeholders and audiences.
- The grading system shall be designed to ensure that students, families, teachers, counselors, advisors, and support specialists have the detailed information they need to make important decisions about a student's education.

- The grading system will measure, report, and document student proficiency against a set of clearly defined cross-curricular and content-area graduation standards developed by the administration, faculty, and staff of Berlin Middle High School.
- The grading system will measure, report, and document academic progress and achievement separately from habits of work, character traits, and behaviors.
- The grading system will ensure consistency and fairness in the assessment of learning, and in the assignment of scores and proficiency levels, across students, teachers, assessments, learning experiences, content areas, and time.
- The grading system shall not be used as a form of punishment.

Scoring Protocols

(Exceptions to the articulated protocols below may be presented to the building principals for consideration.)

Grades K–5

- K–5 will continue to utilize their Standards-based grading by trimester. Standards-based grading measures student progress relative to specific State learning standards.
- K–5 will emphasize the use of report card comments and conferences to further communicate expectations and understandings as to student progress with parents or guardians.

Grades 6–8

- 40-week courses that meet daily shall score according to the following: 22.5% per quarter grade and 10% for a final exam/project.
- Any 8th-grade accelerated student in a Regents-level course will follow the 9-12 scoring protocol outlined below.
- Any courses that do not meet daily over 40 weeks may or may not include a midterm or final assessment. These courses will incorporate multiple formative and summative assessments based on the course curricula. The percentages between each quarter will be evenly distributed. If a teacher chooses to give a final/project, the combined grade cannot exceed 10% of the overall final grade.

Grades 9–12

Non Regents-ending courses:

- 40-week courses, that meet daily, shall score according to the following: 20% per quarter, 7.5% for midterm, and 12.5% for final assessment (exam or project).
- Semester-long courses that meet daily shall score according to the following: 45% per quarter, 10% for the final exam or project.
- Any courses that do not meet daily over a 40-week or semester period may or may not include a midterm or final assessment. These courses will incorporate multiple formative and summative assessments based on the course curricula. The percentages within each quarter will be evenly distributed. If a teacher chooses to give a midterm or final, the combined grade cannot exceed 20% of the overall final grade.

Regents-ending courses:

- Each quarter will weigh 20% per quarter, 5% midterm and 5% final, and 10% Regents. The midterm or final can either be an exam or a project.
- Teachers shall give the final assessment before June 1st to assess their students' knowledge of the standards as a data point to drive the remaining days of instruction in preparing their students for the Regents exam.

Midterm Examinations

The BMHS Principal, in consultation with department chairpersons, may mandate midterm examinations for middle school and high school courses. While collaboration with the respective department committees is encouraged in the planning and implementation of such assessments, the final decision regarding the administration of midterm examinations rests with the BMHS Principal.

Grade Reports

Parents and students shall be provided a written report card 3 times per year for grades K–5, and 4 times per year for grades 6–12. Interim progress reports shall be available 4 times per year using our Student Management System (SchoolTool) for grades 6–12 at the halfway point of each quarter. Printed interim progress reports will be provided upon request, though parents and students are encouraged to access grades in the Learning Management System(Schoology) often, using the format provided by their teachers in the course outline.

Class Attendance

The Berlin Central School District recognizes an important relationship between class attendance and student performance. Consequently, each marking period a student's final grade may be based on classroom participation as well as student performance on homework, tests, papers, projects, etc.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation, unexcused absences will affect a student's grade for the marking period.

At the high school level, any student with more than ten (10) unexcused absences for one-half year course (or a course that meets every other day all-year) or twenty (20) unexcused absences for a full year course will not receive credit for that course. However, students with properly excused absences may make up the work for each absence and those excused absences will not count toward the minimum attendance standard.

To ensure that parents and students are aware of the implications of this minimum attendance requirement, the teacher or other designated staff member(s) will advise the student and contact the parent(s) by telephone and/or email at appropriate intervals prior to the student reaching ten (10) or twenty (20) unexcused absences.

In implementing the policy set forth above, students who are unable to attend school or a class on a given day due to their participation in a school-sponsored activity (i.e., music lessons, field trips), may arrange with their teachers to make up any missed work. This also applies to any student who is absent, tardy or leaves early from school or a class due to illness or any other excused reason.

All students with excused absences are expected upon their return to consult with their teachers regarding missed work.

Only those students with excused absences will be given the opportunity to make up a test or other missed work and/or turn in a late assignment for inclusion in their final grade. Make-up opportunities must be completed by a date specified by the student's teacher for the class in question. Students must make up assessments within five days upon their return to school. Any assessment not made up within five days will become a zero.

Teacher Expectations

Course Outlines

Teachers will provide a course outline annually to the building principals for approval by the end of the first week of school. This document will be provided to students and accessible via Schoology before the teacher delivers any new content.

Course outlines will be provided to students, and by extension, parents, and will be posted on the teacher's pages in the Learning Management System (Schoology) or through the process of introductory letter and Open House for grades K–5.

The course outline will include the following mandatory components:

- an overview of the subject matter being taught (at K–5, this would include an overview of the standards-based report card);
- the grading breakdown for the subject: e.g., participation=10%, formative assessments=20%, summative assessments=30%, et cetera;
- Any midterm information, expectations, and implications;
- any final exam or final project information, expectations, and implications;
- the teacher's resubmission policy;
- mandatory and/or important dates for the subject/course, where applicable;
- teacher contact information: i.e., email, Schoology pages, et cetera;
- Course and classroom expectations, which will align with the District's Code of Conduct, will be developed and communicated
- Class materials needed for the course

Assignment Tracking & Organization

- Students in grades 6–12 are expected to use their Chromebooks to record assignments and upcoming assessments. All teachers will post assignments in Schoology so that parents/caregivers and students can view them at any time.

Feedback

- Teachers will provide timely feedback to students on assignments and progress within courses. The standard for this will be updating gradebooks *at least every two weeks*, unless an assignment is deemed to be an exception to this expectation (e.g., cross-curricular PBL assignments, research papers).

Gradebook Content

- No assignment in any subject where grades are calculated for a numerical score may weigh more than 20% in any given quarter.
- All gradebooks will be well-balanced in assessment types between formative assessments and summative assessments.
- The gradebook must be set up in percentages and not total points. If factors are used for an assignment, they should be reflected in the title of the assignment.

Quarterly Averages

- Where numerical grading systems are applied, no quarter grades lower than 50 will be permitted to be recorded for students for quarters 1 and 2. The 3rd and 4th quarters will be allowed to reflect the students' raw quarterly scores, even if below the previous minimum of 50. For semester-long courses, the first quarter of that course will be no lower than a 50. In the second quarter of that semester, the raw score will be allowed.

Exemptions

- Dual enrollment courses where associated colleges have pre-determined their grading policy will be exempt from the District's grading policy.

Academic Integrity

Plagiarism and Cheating

Any allegations of plagiarism or cheating shall be fully investigated by the School Principal or designee. Students found to have committed plagiarism or to have been confirmed to have cheated on an assignment or assessment will be subject to determinations made within the Code of Conduct policy. Determinations on these offenses will be made by the school Principal, and where additional consideration is required, with consultation from the Superintendent. Any student found to have violated the rules of academic integrity will be ineligible for academic recognition, as defined below, for the duration of one marking period.

Academic Recognition

**With few exceptions, incomplete grades may mean that a student will not be included in the names for publication at the end of each quarter:*

Merit List

- Based on a student's overall quarterly average (must be 85 or higher)
- If students receive one or more grades below 65 or an incomplete for a course, they will not qualify for the Merit List (*until the incomplete is satisfied).

Honor Roll

- Based on a student's overall quarterly average (must be 90–94)
- No course grade below 80
- *No standing incompletes

Principal's List

- Based on a student's overall quarterly average (must be 95–100)
- No course grade below 85
- *No standing incompletes

Course Weighting for Advanced classes

This component of the grading policy recognizes that at the secondary level, dual-enrollment courses (often referred to as college-level) or Advanced Placement courses resulting in the prospect of college-level credit have variability in grading practices. Grade weighting, the upward adjustment of the numerical value of student grades, shall be used to reflect the academic achievements of students completing dual-enrollment or Advanced Placement courses offered by the District. Only those dual-enrollment or Advanced Placement courses offered by the District and taught by qualified teachers shall be considered for grade weighting.

Rationale: Given that AP and dual enrollment courses are offered under the authority of the District and taught by teachers under the authority of the programs of the District and that they are also authorized by a center for higher learning, such as a certified college or university or the College Board, they are monitored, evaluated, reviewed, and modified to ensure course consistency to college-level and District academic standards.

Weighted Averages

The academic year final grade average will be determined using the following guidelines:

- AP and dual-enrollment courses taken in advance of standard scheduling will have a level weight factor of 1.10. At the end of each quarter, student quarter grades will be weighted accordingly.
- All other courses will have a level weight factor of 1.00.

Add/Drop Timelines

Students will be expected to remain enrolled in the courses that they have selected. The add/drop procedure will begin with the school counselors, and ONLY the school counselors will make changes in student schedules.

- If a schedule change needs to be made, students will have up to 10 school days after the beginning of the school year to drop or add any course.
- After this date, a Student Course Change Request form must be used and signed by the student, teacher, parent, administrator, and finally the school counselor.
- After 10 weeks have passed for a 1 credit course (3 weeks for a .5 credit course), along with the signed Course Change Request form, a parent meeting must be scheduled.

Attendance/Participation

It is not required that teachers utilize participation in their course grading protocols. If they do, attendance alone cannot be the reason for a student to fail a course, as per NYSED.

Also, students should be evaluated objectively and within reason. Grading categories or rubrics that include participation should be well articulated and reflect a growth mindset. Student assessments that cannot be justified through objective measures are not considered valid. Participation should count for no more than 10% of a student's quarterly grade; however, teachers may seek an exception to this rule by presenting their justification in writing to their building principal. Please schedule a meeting with the Building Principal to address these exceptions.

Processing and Changing Student Grades

Grades are expected to be submitted frequently and provided to parents on the Parent Portal or the Learning Management System (currently Schoology or Seesaw). Submission of grades in advance of the generation of quarter or interim reports will be

open until a date set by the Building Principal, at which point the grading system will be closed and locked. Any submissions after that date must be accompanied by a written request. Electronic Gradebooks will be unlocked only for enough time to allow the modification. Any extension to the date the system will be locked must be approved by the Building Principal.

While the professional judgment of the teacher shall be respected, it is understood that occasionally there may need to be an adjustment in grades after the term. Examples include, but are not limited to, reflecting additional assignments, correcting mistakes, or accommodating student illnesses. Once a grade is assigned to a student by a teacher, the grade may only be changed by the Building Principal, Superintendent, or designee after notification to the teacher of the reason for such change, or upon request of the teacher. All grade changes require supporting documentation to be maintained in the system and the student's record, including the name and title of the person making the request, the date of the request, and the specific reason(s) for the change.

The District's student management system will serve as a historic and official representation of the grades and credits earned. Grade changes and documentation will be filed in the student's permanent record folder.

Should an administrator enforce a grade change, that administrator shall be prepared to report to the Superintendent of Schools and/or the Board.

All re-openings of the grading system and grade changes will be reviewed annually by the Superintendent to ensure the process is being followed and there is no unusual or inappropriate activity.

Grading System Access

There will be a limited number of personnel other than teachers who have access or permission to enter or change grades in the system. This list includes the District Information Processing Specialist and Building Principals.

The Superintendent or designee will develop regulations and procedures for adding users, establishing users' access rights (including, if applicable, override abilities), deactivating or modifying user accounts, granting user permissions, and monitoring user access to and activity within the system.

Access and permission will be reviewed annually to ensure that appropriate individual users have the correct permissions to perform the tasks required of them. Access and permissions will be compatible with roles or job duties. The access and permissions of people no longer employed by the district or no longer in positions requiring access and permissions will be removed, modified, or deactivated immediately.
